

# HOW TO REGISTER FOR AN ACCOUNT

- 1 You can access the Registration form by clicking on the “Register” icon under “How it works” section.

OR, use the Register link in the upper right-hand corner on the top of any page.

- 2 The Registration form will open. Fill in required information and click on “Create Account” button.

A screenshot of the 'Register for an Account' form. It has five input fields: 'Username' (with placeholder 'username'), 'Full Name' (with placeholder 'Joe Bloggs'), 'Email' (with placeholder 'joe@example.com'), 'Password' (with placeholder '\*\*\*\*\*'), and 'Confirm' (with placeholder '\*\*\*\*\*'). At the bottom right is a blue 'Create Account' button. An orange arrow points to this button.

- 3 To complete the registration process, provide your username or email address to your Organization Administrator. Administrator will use it to add you to your Organization as a Member (preview private datasets), or Editor (preview private and upload/edit new datasets).
