HOW TO DOWNLOAD DATA

**①** To find datasets in YDC, type any combination of search words (e.g. "health", "transport", etc) in the search box on any page.

Alternatively, you can also select the "Datasets" link on the top of any page.

OR, click on the "Download Data" icon in the "How it works" section.

② When you have found a dataset you are interested in and selected it, the dataset page will be displayed. To complete the download, click on the "Explore" button.

The drop-down menu will allow you to "Preview" or "Download" the data. Select "Download".
